Projects

QuickHire – Job Portal | *MERN Stack, JWT, React Router, Tailwind* — 2025
- **Developed a full-stack job portal** enabling user registration, role-based access control (applicant, admin, guest), and seamless job application flows.
- **Integrated JWT-based authentication** and implemented REST APIs to securely manage user sessions and role-level access.
- **Optimized build times by 30%** using **Vite**, delivering a faster, smoother user experience across devices.
- **Designed responsive user interfaces** with Tailwind CSS, ensuring mobile-first layouts across **5+ modular views**.
- **Built and deployed REST APIs** connected to **MongoDB Atlas**, enabling robust data storage and retrieval.
- **Live Demo:** talent-nest.netlify.app/

University Event Management App | *Flutter, Firebase, Razorpay, Lottie* — 2024
- **Developed an Android mobile app** for event listing, registrations, payments, and role-based admin controls.
- **Integrated Firebase Authentication** and **Razorpay Payment Gateway**, providing seamless sign-ups and secure transactions.
- **Built navigation using go_router** for seamless screen transitions across **15+ screens**.
- **Leveraged Firestore for real-time database syncing**, ensuring rapid event and data updates across the app.
- **Implemented email verification and state-based navigation flows**, aligning with best mobile app practices.
